

# Renal Replacement Therapy

# Renal Replacement Therapy

Incorporating hemodialysis, peritoneal dialysis, blood purification, renal transplantation and regenerative medicine practices, the open access journal *Renal Replacement Therapy* promotes worldwide discussion and collaboration related to this field. Our expert Editorial Board welcomes submissions from a global perspective across many disciplines, including chronic kidney disease (CKD), acute kidney injury (AKI), critical care medicine and intensive care, bone and mineral metabolism, anemia and iron metabolism, infection, cardiac disease, cerebral disease, diabetes mellitus, hypertension, nutrition, and related social issues.

**Editor-in-Chief: Prof Takashi Shigematsu**

## Why publish in the journal?

- Article-processing charges covered by the Japanese Society for Dialysis Therapy
- Gold Open Access which fosters wider collaboration and increased citations
- Official journal of 5 well-established Japanese societies
- Japanese Society for Dialysis Therapy (JSDT)
- Japanese Society for Clinical Renal Transplantation (JSCRT)
- Japanese Society for Peritoneal Dialysis (JSPD)
- Japan Society for Blood Purification in Critical Care (JSBPCC)
- Japanese Society of Renal Rehabilitation (JSRR)

## 2017 Journal Metrics

### Speed

- 34 days from submission to first decision
- 134 days from submission to acceptance
- 21 days from acceptance to publication

### Usage

- 99,151 Downloads
